## Guitar 101 (Essential 2.1)

First open chords

---

### LESSON NOTES

Moving on from powerchords, here are some fuller sounding chords that everyone should know. In this lesson, you will learn different ways to play G, C and D chords-and ways to check that they sound as they should.

When you are playing songs, you need to be able to change between chords smoothly to keep the momentum going, and Brian shows you a couple of ways to 'cheat' on the fingerings of these chords to allow for fast changing between chords to use in songs.

#### Points covered:

- Traditional and easy fingerings for G, C and D chords
- Changing between chords
- Checking each note of a chord
- Muting
